# Tests

*All furniture are tested for use globally*

# Proper advice

*We have made it easier for you to find the best interior solution to meet your needs.*

*These helpful icons will give you a quick overview of each of our products properties..*

## **ICON Visual Privacy**

Visual distraction can be detrimental to our focus and concentration. In addition, our abilities to read visual cues help us to understand speech better and so increase the potential for distraction. Use this product to reduce visual distraction or improve visual privacy.

## **ICON S– Space saving**

This solution is built to fit in modern, flexible facilities that need the ability to reconfigure or move furniture rapidly and efficiently. The product construction and design make it easy to handle. Use this product in an agile environment or where you need a space saving solution.

## **ICON Speech Privacy**

Distraction distance is perhaps the most important measure in open plan office acoustic assessments. When someone speaks, a certain number of people around them will be able to hear them clearly and will most likely be distracted by them. Use this product in conjunction with others to reduce distraction distance and improve speech privacy..

## **ICON M– Multiple functions**

This product is versatile and multifunctional and can be used in a variety of facilities for several different tasks.

## **ICON A – Absorb**

This product is acoustically absorbent and reduces the reflection of sound off hard surfaces.

## **ICON CL – Cooperative learning**

Adaption and flexibility is important in modern educational facilities. This icon means that the solution can easily change from one function to another – from lecturing stage to group work in seconds.

## **ICON B – Block**

This product is suitably dense to reduce the transmission of speech sounds from one area to another. Creating barriers to sound disrupts the sound path which means that sound travels less efficiently across the space.

## **ICON Reverberation Control**

Rooms with too much reverberation (echo) can be uncomfortable and normal conversation may be difficult. Additional absorption is required to reduce reverberation by preventing reflection off hard surfaces. Use this product, along with others, for the control of reverberation at speech frequencies.

# Canteen

**Four Sure 44<sup>®</sup>**  
**Four Real 74<sup>®</sup>**  
**Room in Room**

*Designed by Strand & Hvass / Four Design*

# Four Sure 44<sup>®</sup>

*Designed by Strand & Hvass*

The four-legged Four Sure 44<sup>®</sup> serves perfectly as a meeting and/or dining chair. The flexible shell offers superb back support. You can choose vibrant colours for an energetic image or maybe go with calm tones for a more natural and Nordic look. Four Sure 44<sup>®</sup> with inside upholstery is a popular choice adding extra comfort and beautiful contrast of materials. Wooden legs can be added for an even warmer feel.

## Features

Excellent seating comfort

Armrest options

Stackable on matching trolley

Linking Device under the seat options

Teflon glides as standard

Available with Inno Note<sup>®</sup> tablet

Monochrome powder coating on frame options

Outdoor options

EN 16193 L2

# Four Sure 88<sup>®</sup>

*Designed by Strand & Hvass*

The clever construction of the Four Sure 88<sup>®</sup> removes the need for a cross bar on the skid frame, allowing the clean lines of the design to flow without interruption.

Four Sure 88<sup>®</sup> is available with a range of options including upholstery, arms and the Inno Note<sup>®</sup> the removable and foldable tablet.

Four Sure 88<sup>®</sup> is the perfect robust stacking chair with endless colour combinations to enliven any environment.

## We dare to say...

*The organically shaped design creates a fantastic coherency and graphic feel to the room. We love it, when we see how clients' explore the possibilities and maybe even dare to break the colour theme with one or several colours. Who would you rather eat lunch with: the calm and quiet one or the fun and energetic...?*

## 88 great reasons...Almost.

- *Super stackable*
- *Optional armrests*
- *Seat or inside upholstery*
- *Superb sitting comfort*
- *Part of a big chair family*
- *Noise reducing feet and construction*

# Four Sure 44<sup>®</sup> & Four Real 74<sup>®</sup>

*Designed by Strand & Hvass / Four Design*

Part of the more curvaceous Four Sure<sup>®</sup> range, the Four Sure 44<sup>®</sup> is an extremely comfortable four-legged stacking chair available with or without arms. Four Sure 44<sup>®</sup> is extremely comfortable due to its unique V-shape, flexible back and organic curves. Four Sure 44<sup>®</sup> is the perfect choice for canteens, meeting rooms, lecture rooms, or for office visitor seating.

- *You have the option of 2 different armrests*
- *You can choose seat or inside upholstery*
- *Neet Poly shell*
- *Superb sitting comfort*
- *Part of a big chair family*
- *Noise reducing feet and construction*

# Four Sure 44<sup>®</sup> with wood base

*Designed by Strand & Hvass*

Get inspired on Instagram  
**#FourSure44ByFourDesign**

---

*Sometimes you have to go back to the roots to find what is real and let that inspiration move you forward.*

*With our history and passion for craftsmanship we have created Wood – a solid and beautiful choice for Four Cast2, Four Sure and Four Real tables.*

*The designers wish with wooden editions is to add a more casual and warm character to the furniture families. With the informal expression and a softer signal, this wooden edition implements the beauty of nordic nature - and that comfortable feeling of 'home' in any public space...*

# Four Sure 90<sup>®</sup> & 105<sup>®</sup>

*Designed by Strand & Hvass*

Four Sure 90<sup>®</sup> and Four Sure 105<sup>®</sup> are elegant, stackable skid frame high chairs for higher level working and dining.

The Four Sure 90<sup>®</sup> and 105<sup>®</sup> are designed to complement the Four Real<sup>®</sup> tables where partitions can be added to create flexible and private work spaces. The chairs come in various attractive colours.

# Four Cast2 Four® & Four Eating®

*Designed by Strand & Hvass*

The Four Cast2® Four is perfect in canteens, conference centres, educational establishments. Four Eating® is a versatile folding table ideal for canteen, learning or meeting environments. The option of a chair suspension system allows chairs to hang under the table-top, clear of the ground, to prevent the practice of stacking chairs on tables when cleaning. Integrated castors on two legs and height adjustment glides aids movement and levelling.

## What you maybe didn't know...

*What you maybe didn't know...*

*The Loop armrest is a new addition to our chair families. Just by adding an armrest to a meeting chair you help prevent invasion of your space (from direct contact to 60 cm). By adding an armrest you can help eliminate the feeling of having your territory invaded and thereby reduce the activity in our natural centre of fear (amygdala); this enables better concentration around the meeting table.*

## Why Four Sure 99<sup>®</sup>?

- *Seat or inside upholstery*
- *Superb sitting comfort*
- *Part of a big chair family*
- *Noise reducing feet and construction*
- *Return mechanism*
- *Built-in free-float system*

# Four Cast2 XL® & XL Plus®

*Designed by Strand & Hvass*

With excellent seating comfort and broad leather topped arms, Four Cast2 XL® is an elegant armchair for the meeting or boardroom. Fully upholstered, the Four Cast2 XL® is classically chosen in leather, but is available in a wide variety of fabrics. The four star base is fitted with glides, whereas the five star base has the option of castors and gas lift. An automatic return can also be selected on chairs without castors.

The high back Four Cast2 XL Plus® is also available. It offers the same features as the XL with the addition of a higher back rest for enhanced comfort.

## Features

# Shapes & combinations:

Create and recreate, again and again, the meeting room design with Four Real 741 Flake® tables. These innovations are built on the ideas of democratic design and developed to meet the needs for agile and flexible solutions for people to meet at eye level. Four Real is an inspiring framework for cooperation and mobility for any working environment.

The tangible design and organic shapes and curves makes Four Real 741 Flake® a natural gathering point, whether for 4 or 10 people. Four Real® tables can be used to create a dynamic and fun space as the options can be connected and reconfigured to create a whole new room design. The tables are designed by Nørgaard Design.

# Room In Room

# Fabricks™

*Designed by Nigel Sikora*

Fabricks™ are super acoustic bricks made from acoustic foam and wool fabric, designed to look fabulous, divide space and reduce noise. Quickly configured and reconfigured, Fabricks™ offer the flexibility to change spaces in the modern open plan workplace by creating walls for meeting spaces and individual work areas; the dynamic of a space and even the location of power can be altered in moments.

With great acoustic credentials, Fabricks™ combats the poor acoustics and visual distractions that lead to reduced productivity. Fabricks™ are tested to ISO 10053 and BS EN ISO 354:2003 achieving Class A sound absorption (BS EN ISO 11654) and fantastic sound attenuation results.

Fabricks™ is a modular system of extremely lightweight bricks, a simple steel base and extruded aluminium posts; it is easy to specify and easy to build. The 'house brick' style gives interlocking rigidity to the design. The extruded aluminium posts also accommodate power and data cables and can be combined retrospectively to alter the height of walls.

Walls can be created with traditional 2D flat face bricks, or 3D sculptured face bricks, offering a beautiful textured finish. The fabric colour options and pixelated nature of the bricks allow you to match decor and seating fabric.

Fabricks™ offer great acoustic and visual privacy without building permanent floor to ceiling rooms, so expensive mechanical reconfigurations can be avoided and air will flow across the open plan area.

Everything has been designed for simple, quick installation and reconfiguration.

Whether you are designing for workplace, hotel, education or leisure environments, Fabricks™ can divide spaces to help reduce noise and visual distraction; it's also the perfect flexible, colourful, quick-build wall system for exhibition stands.

## Why Fabricks?

- *Reduced dilapidation costs*
- *No mechanical or engineering reconfiguration*
- *Easy reconfiguration*
- *Match fabrics to furniture*

## What the experts say...

*Fabricks™ is unique in its versatility and performance. As a Class A absorber it can be used effectively for the control of reverberation within a space; however, it is also an effective screen against noise and has good sound attenuation properties, which means it can be used to improve both speech and visual privacy. Due to its easily reconfigurable nature, the user can adjust the size and shape of Fabricks™ to create spaces of different levels of acoustic privacy.*

*To get the most out of the product, it is best installed in an area where there is a highly absorbent acoustic ceiling and appropriate levels of ambient noise.*

## Features

2D flat face and 3D sculptured face lightweight bricks
3 different lengths (30 cm, 60 cm or 120 cm), 2 different heights (20 cm or 40 cm)
90° corner bricks
Typical configurations 160 cm, 180 cm or 200 cm high
Over 30 standard colours from Camira Blazer Lite
Extruded aluminium posts with ability to house power and data cables
Standard post heights can be combined easily (e.g. 600mm post + 180 cm post = 240 cm high wall)
Steel base 30 cm, 60 cm, 120 cm and corner
Tested to ISO 10053 and BS EN ISO 354:2003
Class A sound absorption BS EN ISO 11654
Minimum of 95% recyclable
5 year warranty

Standard leg frame black RAL (7021) other colours available on request

Linking device and castors are available

Part of an extensive, coherent furniture family

# Harc Tub

*Designed by Roger Webb Associates*

# Harc Tub

*Designed by Roger Webb Associates*

Harc has been created to facilitate the basic need to listen and to provide a comfortable place to reduce the surrounding noise. The name Harc echoes the arc shape with its sweeping curves that wrap around to create a warm and cosy enclosure.

## Features

### High back, single seat chair

- Fully webbed seat for additional comfort
- Powder coated cast aluminium, chrome and wooden
- Base options
- Powder coating in a variety of colours
- Available in fabric or vinyl with two-tone options
- Power and data options
- Table in a variety of finishes (Booth)
- Scatter cushions available
- High back tub chairs
- Available in fabric, vinyl or leather with two-tone option
- Moulded foam for additional comfort and durability
- Chrome wire frame, wooden base or polished aluminium
- swivel base with tilt and optional self-return
- Minimum 95% recyclable
- 5 year warranty

The Harc range also includes complementary tables & low back.

## What we know...

*Harc Tub chairs are ideal for areas in which seating may be placed back to back, such as atriums or waiting areas. Both Harc Tub chairs provide a greater degree of privacy than a typical low-back seat. The Harc provides the next level of visual and acoustic privacy within the Harc range. Because of the relatively enclosed configuration, there are fewer direct paths in which sound can travel to nearby listeners.*

*To get the most out of the performance of Harc products, they should be placed in an area where ambient noise levels are suitably high and the ceiling above is highly absorbent.*

# Casino & Stools

*Designed by Ocee Design*

The **Casino** stool range is a great addition to any open space where touchdown seating allows people to take a break or catch-up with colleagues in an informal environment. The option of a single or double crescent enables a multitude of configurations to be created. Ball foot brushed chrome or polished chrome legs offer that extra finishing touch.

## Features

Round, 1 crescent & 2 crescent options

Available in fabric, vinyl and leather

5 year warranty

Minimum 95% recyclable

CMHR foam

Available with ball foot brushed chrome or polished chrome legs

## Stools

Upholstered **Stools** are the stylish accessory for any contemporary reception, touchdown or breakout area. Dot, Dash, Morse, Code and Cube offer a range of shapes, heights, leg and castor options to suit any requirement.

## Features

Dot, tubular design with optional legs in two styles (height 400mm x width 470mm)

Dash, square with optional legs in two styles (height 400mm x width 470mm)

Morse, square with leg or castor options (height 465mm x width 470mm on castors)

Code, tubular with leg or castor options (height 455mm x width 470mm on legs)

Cube, (height 500mm x width 465mm)

All available in fabric, vinyl or leather with two-tone options

# WallPod Ear<sup>®</sup> | Four Cast2 Line<sup>®</sup>

- *Creates work areas in underutilised spaces*
- *Creates a private space*
- *Touchdown*
- *Can be mounted at different heights*

Get inspired on Instagram  
**#InnoPodByFourDesign**

# Inno Pod®

*Designed by Anders Nørgaard*

Inno Pod® is a truly flexible mobile workspace that can be moved to create a private area exactly where you need it. Fitted with large castors, you can spin Inno Pod® round to create a barrier against visual and acoustic distraction; you can even quickly change the desk height to your desired working style.

Inno Pod® is perfect for large spaces, busy areas, or anywhere where you need a touchdown workplace. Taking up only about 1 square meter, Inno Pod® s can also be used together to create banks of flexible working areas.

## Features

Inno Pod® H: 205 cm x W: 130 cm x D: 95 cm

Inno Pod Big® H: 205 cm x W: 190 cm x D: 95 cm

Nano-laminate 21mm table top with impact

Resistant ABS edges in white, anthracite and black

Two desk heights

Table top 49 cm x 81 cm and table top 118 cm by 81 cm

Optional chair suspension

Large castors for easy movement

Available in a range of fabrics

Tested to EN 1023

Minimum 95% recyclable

5 year warranty

## What the experts say...

*This semi-enclosed workstation can be easily moved to provide visual and acoustic privacy. Where privacy is required, the InnoPod should be positioned such that the open sides are not orientated towards the listener, and placed in an area with adequate ambient noise levels. While many booths and screens work best under highly absorbent ceilings, the integrated ceiling of this product eliminates this requirement.*

\*Visual and acoustic privacy subject to orientation.

# Den.

## Acoustic work areas

Den is a range of acoustic work areas created to make public spaces private. The environment we work in has to facilitate both the privacy needed to concentrate and the space needed to collaborate. Large open spaces with shared working areas create lively exciting environments, which cultivate greater collaboration. But what happens when you need a quiet area? Den reduces visual and acoustic distraction; it is about creating the most effective environment for you to work happily and efficiently.

Den's unique junction system enables numerous configurations to be constructed with shared components, unlike other acoustic workstations which extend their configurations by placing stand-alone units back-to-back. This modular design ensures an economical construction, which can be easily extended and reconfigured to suit your changing needs.

### Den Sit/Stand

Den Booth is also offered with an electrically controlled sit/stand desk to ensure that you change your working position to aid health and wellbeing.

### What the experts say...

*The sound absorption provided by the Den screen prevents sound from being reflected off its surface, as it is with typical non-acoustic desk screens. These screens also provide a degree of sound attenuation, thereby playing a role in reducing the distraction distance in offices, creating a more comfortable acoustic environment.*

### Features

8 styles with an array of accessories

Acoustic panels

Unique junction system with shared components for economical construction

Designed to allow numerous configurations and reconfigurations including bespoke specials

Plain and quilted fabrics

Silver or black trim line

Worktops in a variety of finishes with a matching or contrasting edge

Worktop sizes of 43mm, 25mm and chamfered 12mm

Soft seating options

Full selection of lighting, power and connectivity options

Electrically operated sit/stand desk available in the Den Booth with Linak push button control

Den canopy with light available on Den Diner and Den Booth

98% recyclable

5 year warranty

\*Visual and acoustic privacy dependent on height of screen.

# Four Me 66<sup>®</sup>

*Designed by Strand & Hvass*

# Inno Tab<sup>®</sup>

*Designed by Strand & Hvass*

---

Inno Tab<sup>®</sup> takes learning comfort to a higher level. This writing tablet is designed for cooperative learning. Adjust the patented, movable writing tablet for your individual use, and listen to a lecture or work in small groups. The moveable writing tablet gives you easy access to the chair.

With the patented Inno Tab<sup>®</sup> you can always upgrade your Four<sup>®</sup> Cast2 Wheeler and Four Sure 66<sup>®</sup> chairs later for maximum utilization in any educational environment.

Like all Four Design<sup>®</sup> products, it offers you great value for money and a lot of flexibility.

The Inno Tab<sup>®</sup> is a Four Design concept and designed by the award winning designers Christina Strand & Niels Hvass.

# Four Learning<sup>®</sup>

*Designed by Strand & Hvass*

Four Learning<sup>®</sup> is your evident choice for a foldable table in a functional and aesthetic design. The table is easily folded by one person, and two integrated castors let you handle the table without effort.

The table is available in 2 different sizes. It is possible to upgrade Four Learning with chair suspensions, linking device and cable duct. Four Learning<sup>®</sup> is designed to match the Four<sup>®</sup>Cast2 and Four<sup>®</sup>Sure chairs, and can be stacked on trollies.

## Why Four Learning<sup>®</sup>?

- *Easily foldable by one person*
- *2 integrated castors for easy transportation*
- *Prepered for chair suspension*
- *Durable ABS edging*

## Features

128 x 64 cm

140 x 70 cm

Frame: Chrome (III) / Matt lacquered white, black or warm grey

Chair suspension

Linking device

Trolley for 10 tables

Cable duct

Modesty panel

The table can be separated into parts and recycled

EN 15372 L2

# Inno Note®

*Designed by Strand & Hvass*

You can easily adapt your canteen and meeting chairs for conference use, simply by attaching the Inno Note® to the chairs. The Inno Note® writing tablet matches a 13" PC. It has a stylish matt black surface and an integrated cup holder. The tablet is foldable and easily detachable from the chair without the use of tools.

The Four Design® products match each other, and with the Inno Note® you can upgrade the Four Cast2 Four®/Line® and Four Sure 44®/88® chairs.

The Inno Note® is a Four Design® concept designed by the award winning designers; Christina Strand & Niels Hvass.

Upgrade following chairs with Inno Note®:  
Four Cast2 Four®/Line or Four Sure 44®/88.

## Features

22,5 x 32,5 x 2 cm.

Frame: Chrome (III)

The table can be separated into parts and recycled

ISO 14001

5 year warranty

Integrated cup holder

Trolley for 51 Inno Note® available

## Why choose Inno Note®?

- *Easy foldable and detachable by one person*
- *It's easily attached*
- *You get to convert a chair in an instant*
- *Lean and simple design*

# Linking devices

*Designed by Strand & Hvass / Four Design*

Maximise safety and convenience with linking devices.

The linking devices are developed for spaces that continuously reconfigures and are ideal for community halls, canteens, event venues and schools. The devices prevent chairs from becoming unintentionally unlinked in the case of an emergency.

Both solutions allows the chairs to be rapidly moved apart and linked together to form and maintain a row.

## Why choose this feature?

- *Reduces cost of labour*
- *Conforms to fire regulations*
- *Chairs can quickly and easily be placed in large formations*
- *Maintains chair placement preventing unintentional detachment*

# Four Cast2 Audi®

*Designed by Strand & Hvass*

# Four Sure | Four Cast2 Audi®

*Designed by Strand & Hvass*

Four Cast2® and Four Sure Audi® provides perfect cooperative learning; perfect in auditorium, educational establishments and waiting areas.

Four Cast2 Audi® and Four Sure Audi® is designed to offer you the maximum comfort and ergonomic support thanks to the V-shaped back, the flexible shell and integrated tilt mechanism.
